For the e-MatriX series, whilst stocks last, the fire casing may be 32mm lower than noted on the drawings in these brochures. After delivery, check the height of the fire casing to prevent misunderstandings. The very latest drawings of Faber fires are available on the website www.faberfires.com

Note: The new log set for the e-MatriX series (season 20/21) is different from the log set shown in the images. New log set does not contain glow bed lighting.
