

Vivente 75 | 100 | 150

Vivente is the latest innovation in electric flames from Dimplex Fires. With a choice of different widths, namely 75, 100 and 150 cm, this fireplace is sized to suit a variety of applications, from small apartments to grand public areas. The clever design enables the choice of creating a 1, 2, or 3-sided configuration when the product is being installed. The anti-reflection glass ensures that you can watch the stunning fire image optimally. Thanks to the Revillusion fire effect, the Vivente looks twice as deep as traditional electric fireplaces and it seems as if the flames are burning in the middle of the fireplace. This also allows the firebox lining to be changed to suit your interior design theme.

Vivente 75 | 100 | 150

Revillusion®

There are 4 finish options included as standard – ribbed, tiled, stacked stone, and plain black, you can even customise your own panel to suit. Vivente's unrivalled features include SmartSense motion sensing technology, heating, and a multitude of flame colour and sensory options such as the crackle of a real fire. These settings can be controlled either with the on-board controls, the remote control, or the Flame Connect App (available for Android and iOS). If you think you know electric flame, think again - welcome to the future.

-  3 viewing configurations included as standard. (1-, 2- or 3-sided fireplace)

Vivente FLAME CONNECT APP

Flame Connect is a new app that places full control of your electric fire into a beautiful, easy and convenient interface, all from the palm of your hand. The app is available on Android and iOS. Enjoy the latest flame technology and ultra-realistic flame effects to create a unique and stunning focal point within any room.

- Simply scan and connect to Bluetooth to communicate directly with your fire.
- Quickly change modes and settings on your fire to suit your mood.
- Set product schedules to automate your fire's on/off times.
- Change flame effect settings and LED colours.
- Prevent unauthorised product access by linking ownership of your fire with your account.
- Enable guest mode for temporary access to other Flame Connect trusted users.
- Support for multiple languages and a choice of Celsius and Fahrenheit readout.

Control of your electric fire, from the palm of your hand.

Scan and connect to Bluetooth to communicate directly with the fire.

Add as many fires as you like for quick and convenient control.

Quickly change modes and settings on your fire to suit your mood.
